

ERPO - the German leather experts

The love of beauty is style, the creation of beauty an art. The art of manufacturing leather upholstered furniture with an aura of consummate beauty has been cultivated by ERPO for almost 60 years. "Leather is a key component of our corporate culture. We are all bound by our passion for this natural product", explains Stefan Bornemann, Managing Director and expert from ERPO. "Leather is so wonderfully pure, so real. The leather reflects our aspiration of creating leather furniture, fusing timeless design, top-quality materials and craftsmanship into a single element in such a way that there can only be one unique hand in it all, namely ours. "In processing a new leather, ERPO is again setting new standards in the industry. Processing the high-quality 550 leather calls for the highest demands in its processing and craftsmanship. And this is why only very few manufacturers are at all able to process such a material. The new 550 leather from ERPO has a feel to it which immediately attests to its high quality. The secret of the leather is only revealed when looking at the overall visual appearance. In spite of its smooth surface, all natural features and irregularities such as veins, scars, wrinkles and colour differences are visible in a discreet, restrained way. The lively structures vary in intensity and are more or less obvious depending upon the colour selected. ERPO is offering the new 550 in the trend-setting colours, Black, Savanna, Lava-Grey, Terra, Sienna and Mocca. In addition, the leather specialist provides a large selection of other, very different and special leathers. There are thick and thin leathers, from semi-aniline to pure aniline and from a subtle grain pattern to irregular, distinctive grain patterns where all natural characteristics are completely visible. The demand that ERPO places on the quality of its leather is always high. ERPO uses the nearly three millimetre thick 450 leather exclusively in its Classics collection. The customer may even select this special leather from a choice of seven colours. True to the ERPO philosophy to be free in combining different seating heights, seating depths, headrests, armrests, shapes of cushions, upholstery and feet elements, all other models can be furnished with a wide selection of leather qualities and leather colours. It doesn't really matter how anybody puts their own personal ERPO dream leather upholstered furniture together, the one thing that all ERPO's leather qualities have in common: They record the traces of our habits and lifestyle. And this is what lends each piece of upholstered furniture its own individual characteristic.
